PROFESSIONAL SUMMARY

Full Stack developer with 4 years of experience specializing in building scalable, high-performance web and mobile applications using React.js, React Native, Node, JavaScript. Strong background in analytical problem-solving and algorithmic thinking, with hands-on experience in REST APIs, Agile methodologies, and collaborative development. Skilled at creating efficient, maintainable code to enhance user experience and improve performance for high-traffic environments.

SKILLS

- **Frontend:** React.js, React Native, HTML5, CSS3, Redux, JavaScript (ES6)
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL
- **Other Tools/Technologies:** Flutter, Python, Git, AWS

EXPERIENCE

Full Stack Developer

SARG Global Digital Pvt Ltd | Mumbai (Remote)

7/2023 - Present

- **Application Development (React) :**
 - Developed the end-to-end development of a scalable web application using React, ensuring seamless functionality and performance for Republic World's users.
 - Implemented responsive design to ensure an optimal user experience across different devices and platforms, adhering to modern web standards.
 - Collaborated with cross-functional teams, including backend developers and product managers, to integrate APIs, optimize workflows, and meet business goals.

- **Mobile Application Development (React Native):**
 - Designed and built a feature-rich mobile application using React Native, available on the Play Store, with seamless integration of third-party APIs and cloud-based services
 - Delivered key features such as push notifications, deep linking, and real-time updates, improving user engagement and business outcomes.
 - Focused on creating a secure, high-performance app with streamlined navigation and excellent user experience, following SaaS best practices for mobile environments.
- **Tech Stack Used:** React.js, React Native, Node.js, Express.js, MongoDB, HTML5, CSS3, Flutter.
- **Contact:** Anil Gupta (CTO) - 8879176661

Full Stack Developer

Xfinite | Mumbai (Remote)

11/2022 - 7/2023

- **Live OTT Platform Development (Mzaalo) (React and Node) :**
 - Contributed to the development of Mzaalo, a live O11 streaming platform, built using React for the web interface and available on the web, Play Store, and App Store. Leveraged React's component-based architecture to create a highly responsive and dynamic user interface, delivering a seamless viewing experience for users across multiple devices and Screen sizes
 - Collaborated with backend teams to integrate APIs, ensuring real-time data streaming and efficient content delivery, crucial for live OTT events and on demand video playback.
- **Tech Stack Used:** React.js, Node.js, Express.js, Postgres SQL, HTML5, CSS3.

Full Stack Developer

TidalWave Technologies | Mumbai (Remote)

3/2022 - 11/2022

- **Full-Stack Development on Live Project :**
 - Full-Stack Development on Live Project: Developed and maintained a live web application using React.js with Redux for state management, ensuring a seamless and efficient user experience. Integrated various JavaScript libraries to extend functionality and enhance the front-end, optimizing the performance and responsiveness of the platform.
 - Designed REST APIs and created database schemas using Node.js for the backend, as well as within React.js for front-end data management. ensuring robust and scalable interactions between the frontend and backend.

- Successfully implemented a payment gateway using Node.js, facilitating secure and reliable transactions for users.
- Developed comprehensive dashboards for administrators, enabling easy management of data and users. The dashboards included full CRUD operations, built with PostgreSQL, Nodejs, and Express.js on the backend, and React.js, Redux, CoreUI, and custom CSS on the frontend .
- **Tech Stack Used:** React.js, Node.js, Express.js, Postgres SQL, HTML5, CSS3.

EDUCATION

Bachelor of Engineering (Computer Science)

Anjuman Islam Kalsekar Technical Campus | Mumbai, Panvel

Graduated: 2021

ACHIEVEMENTS

- Successfully developed scalable applications for high-traffic environments i.e Republic World , Republic Business and Republic TV App (Available in App store and Play Store).
- Contributed to the launch of [Republic World Website](#).
- Contributed to the launch of a live OTT platform (Mzaalo) using React.js.
